

Cognitive Cities

The future of SMART Cities

 Qognify

Cognitive Cities

Cognitive city

Cognitive city is a term which expands the concept of the *smart city*^[1] with the aspect of **cognition**. A cognitive city differs from conventional cities and smart cities in the fact that it is steadily learning through **constant interaction with its citizens** through advanced **information and communications technologies** (ICT) and that, based on this exchange of information, it becomes continuously more efficient, more sustainable and more resilient.
