

5G in front of the door

Daniel Brower, Deutsche Telekom

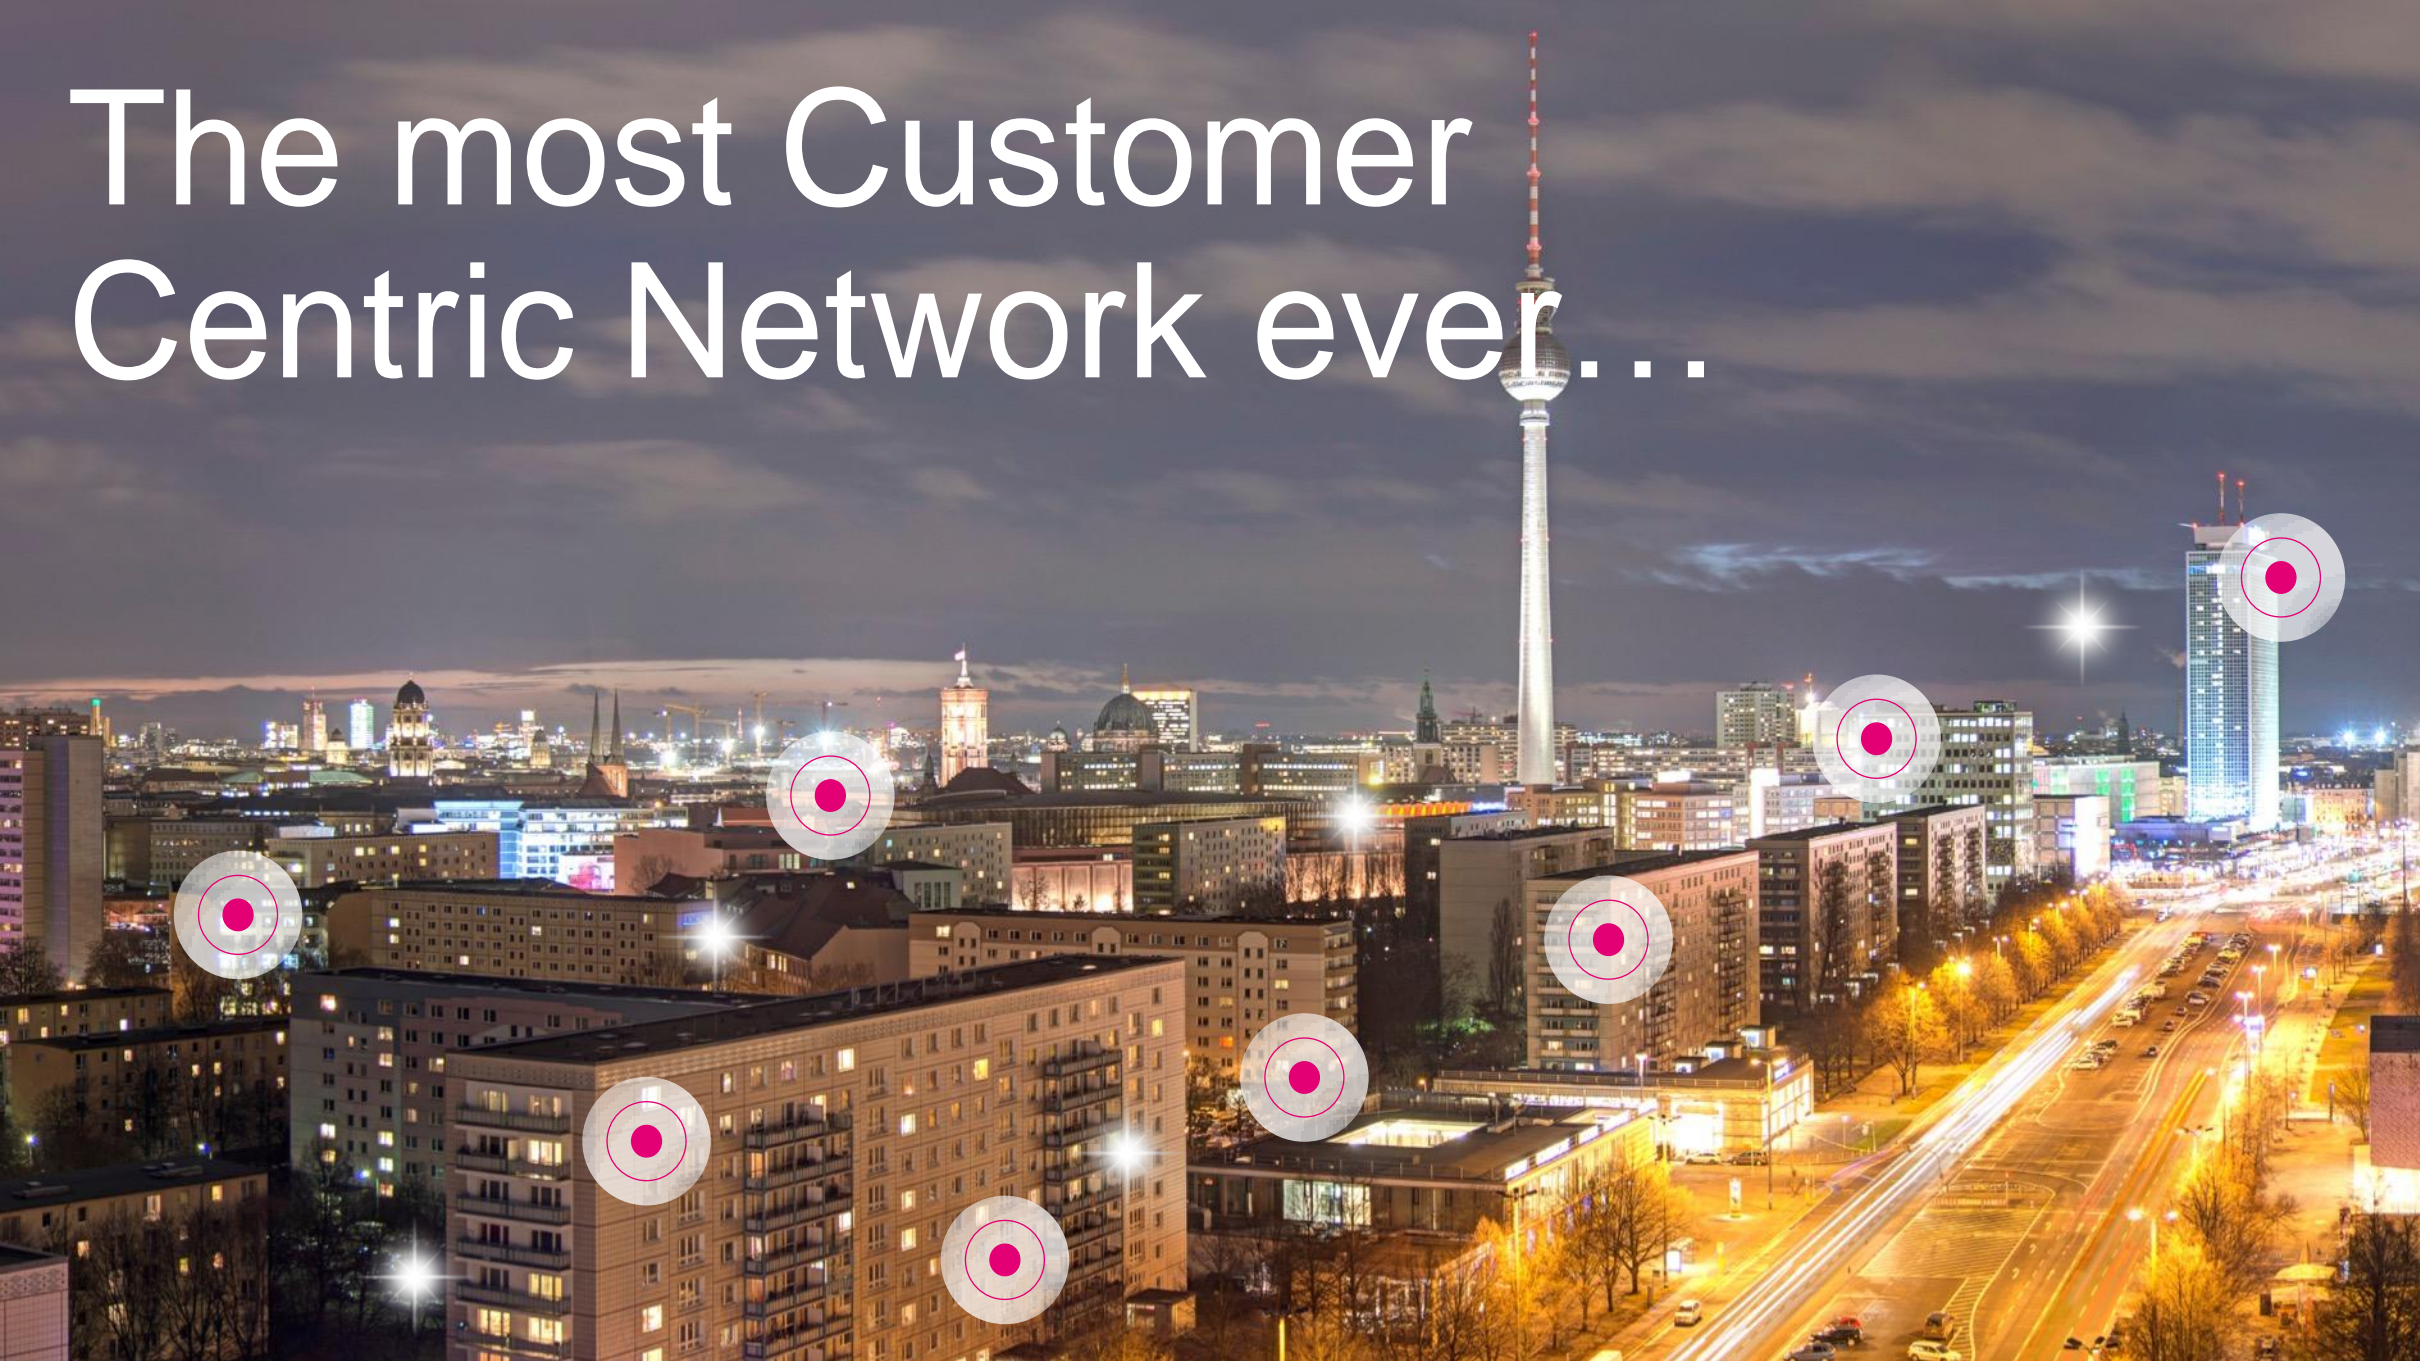

LIFE IS FOR SHARING.

A close-up of a person's hand resting on a window ledge, looking out over a city at night. The hand is positioned on the left side of the frame, with fingers slightly curled. The window ledge is a light-colored, textured material. The background shows a dense urban landscape with numerous buildings, many of which have their lights on, creating a warm glow against the dark night sky. The overall mood is contemplative and futuristic.

What is 5G
going to be?

The most Customer Centric Network ever...

...to meet the Demands of the Digital Gigabit Society

Gigabit LTE
Faster, Higher,
More Extreme
