

NOKIA

5G : Delivering the extraordinary

- 5th G for Humans, 1st G for Machines

Randeep Raina

Chief Technology Officer

Nokia Networks - India

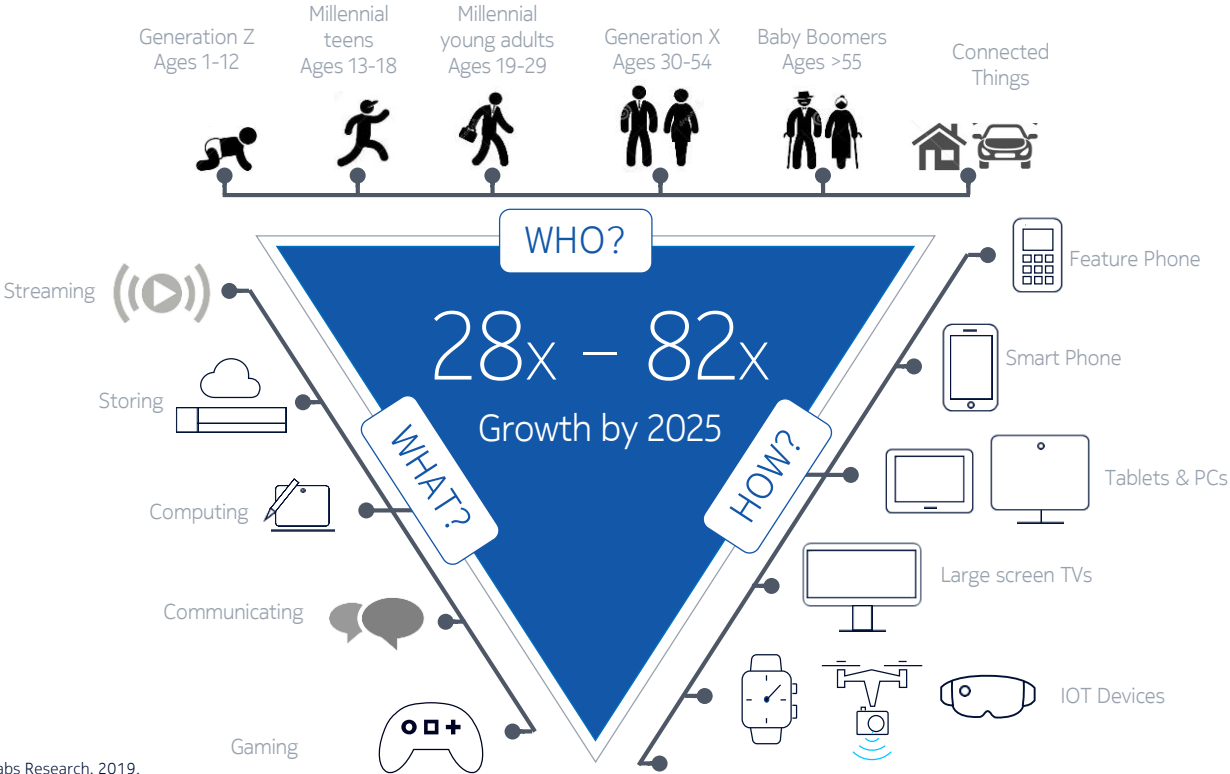

Mobile data traffic & # devices connecting to the Internet grow exponentially Conservative versus disruptive scenarios

Source: Bell Labs Consulting

2019-2025
growth = 28x-82x

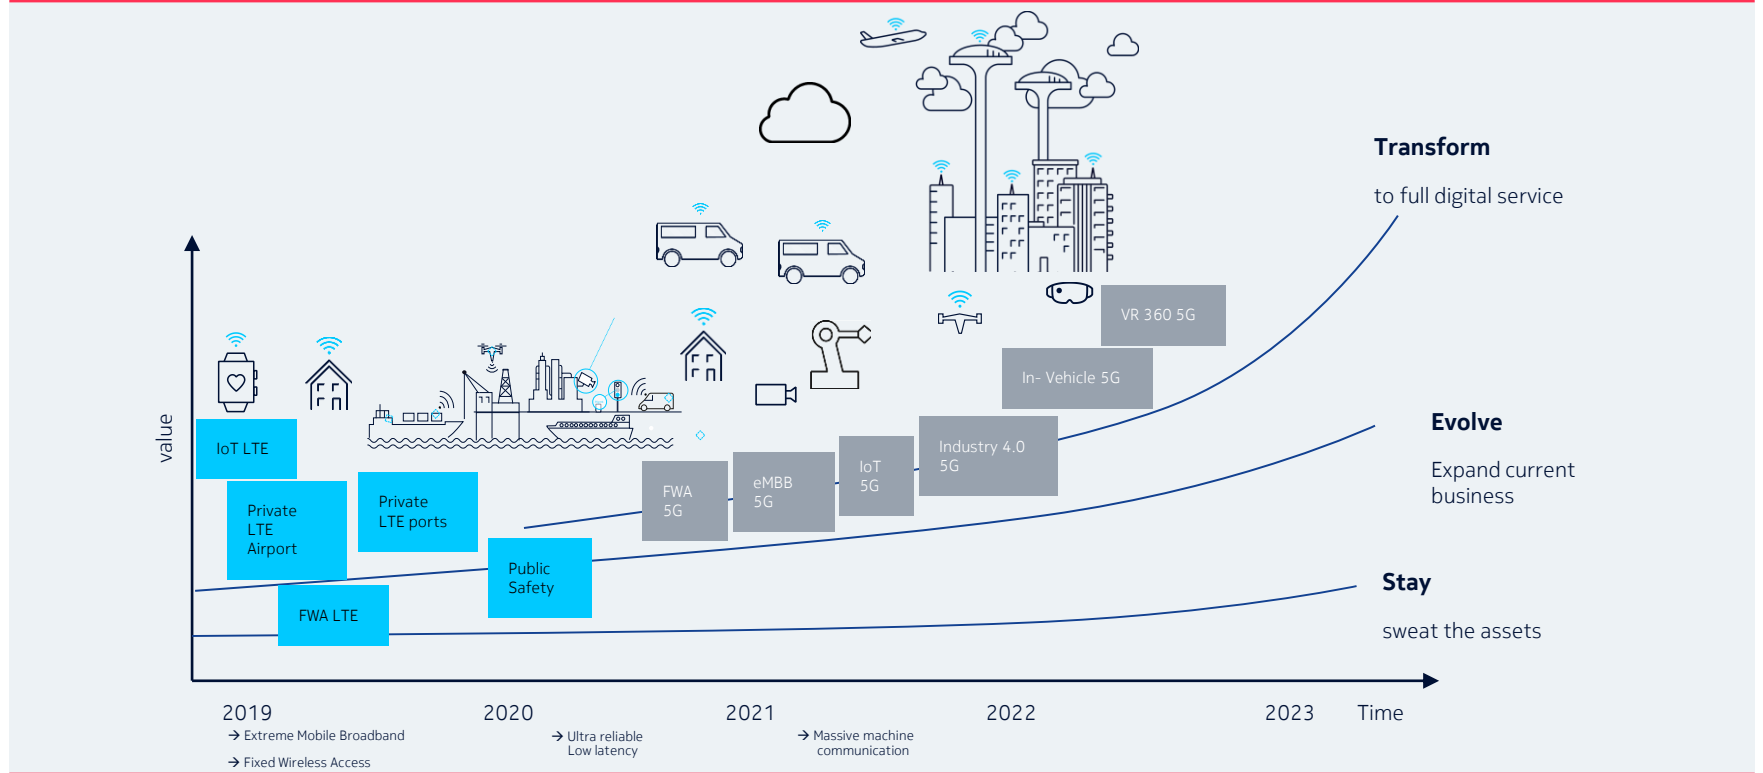

More people and devices want to connect online or stream Entertainment, gaming, shopping and accessing information

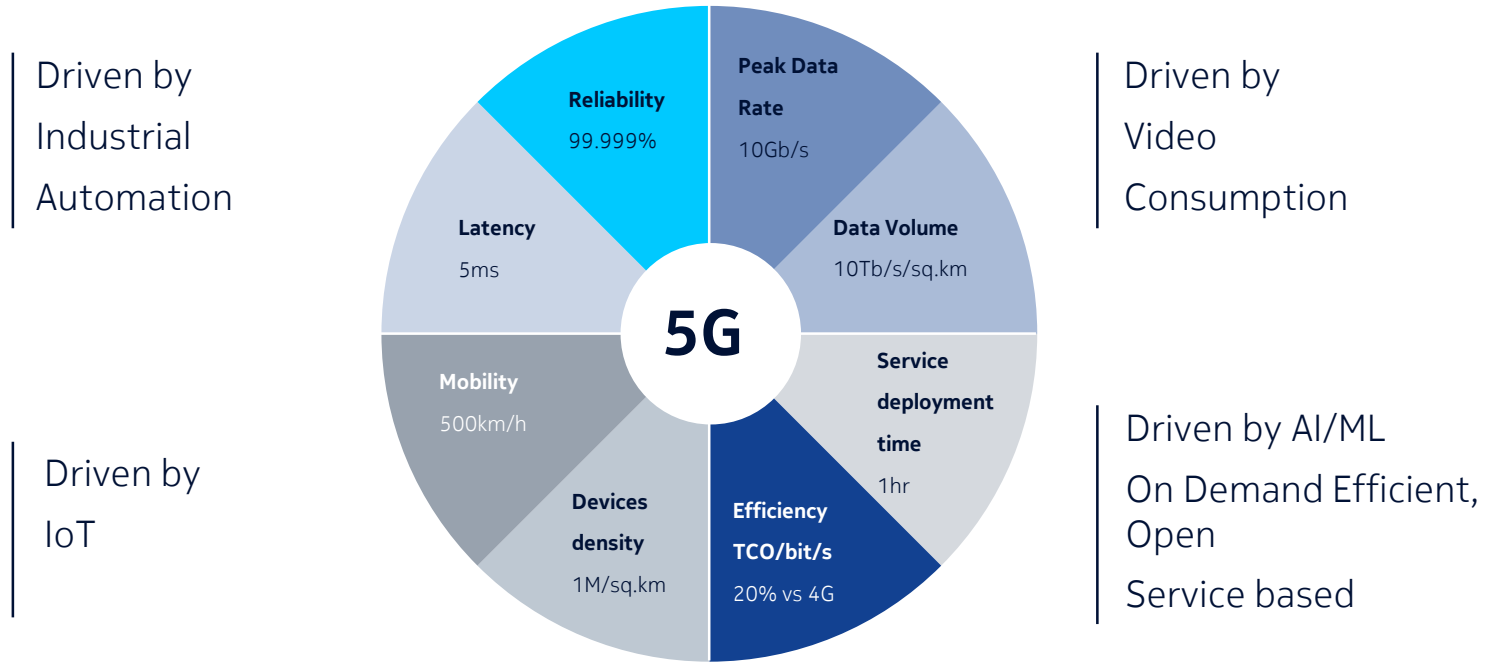

Source: Wireless Traffic Growth, Bell Labs Research, 2019.

Possible business scenarios

Stay, Evolve or Transform

Future Network Currencies and Capabilities Powered by 5G

Enabling use cases for consumers and enterprises.

5G is a giant leap

| Endless possibilities | 2020-25 | |
|-----------------------|---------------------|----------------|
| | Today | |
| Users | 10M people | +100M 'things' |
| Speed | 100 Mbps | 100x faster |
| Latency | >>10 ms | 10x less |
| NW service level | Best effort for all | Committed SLAs |
| Logical networks | 1 | Many (slices) |

- Smart home
- Mobile gaming
- Industry 4.0
- Connected cars
- Drones
- IoT wearables

5G Deployment Driven By Use Cases

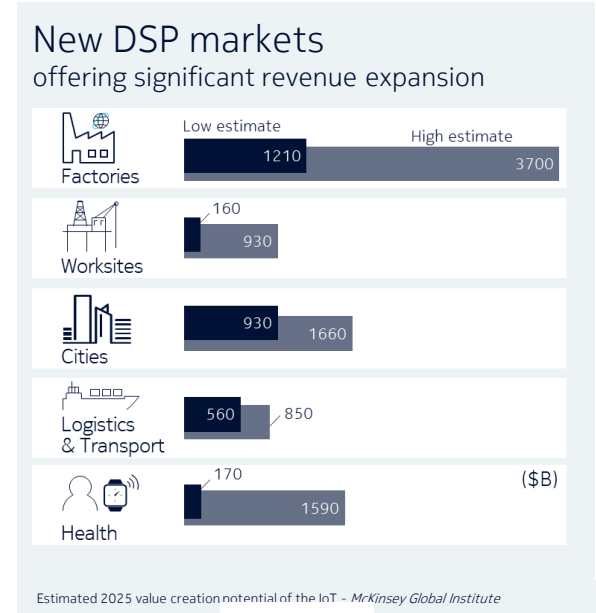

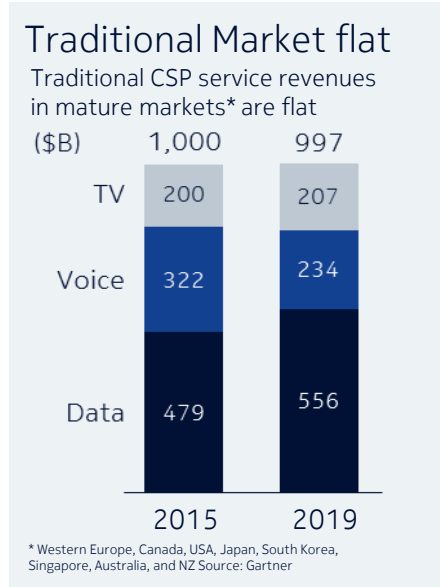

| | Use Case | | Delivered By | |
|----------|-----------------------|-------------------------------|------------------|------------------------------|
| | Application | Examples | Cost Sensitivity | Targeted Coverage / Mobility |
| Consumer | Mobile Broadband | UHD video streaming | Medium | mass / High |
| | Fixed Wireless Access | Fibre like service | High | targeted / none |
| | Gaming | Online games Stadia, Azure | Medium | mass / low |
| Industry | Critical automation | · Collaborative robots/drones | Low | mass / medium |
| | Tele-operation | · Video-based remote control | Medium | targeted / medium |
| | Mass sensor arrays | telemetry, basic control | Very High | mass / low |

**5th G for Humans
& 1st G for
Machines**

Telco Market Opportunity and New Value Creation

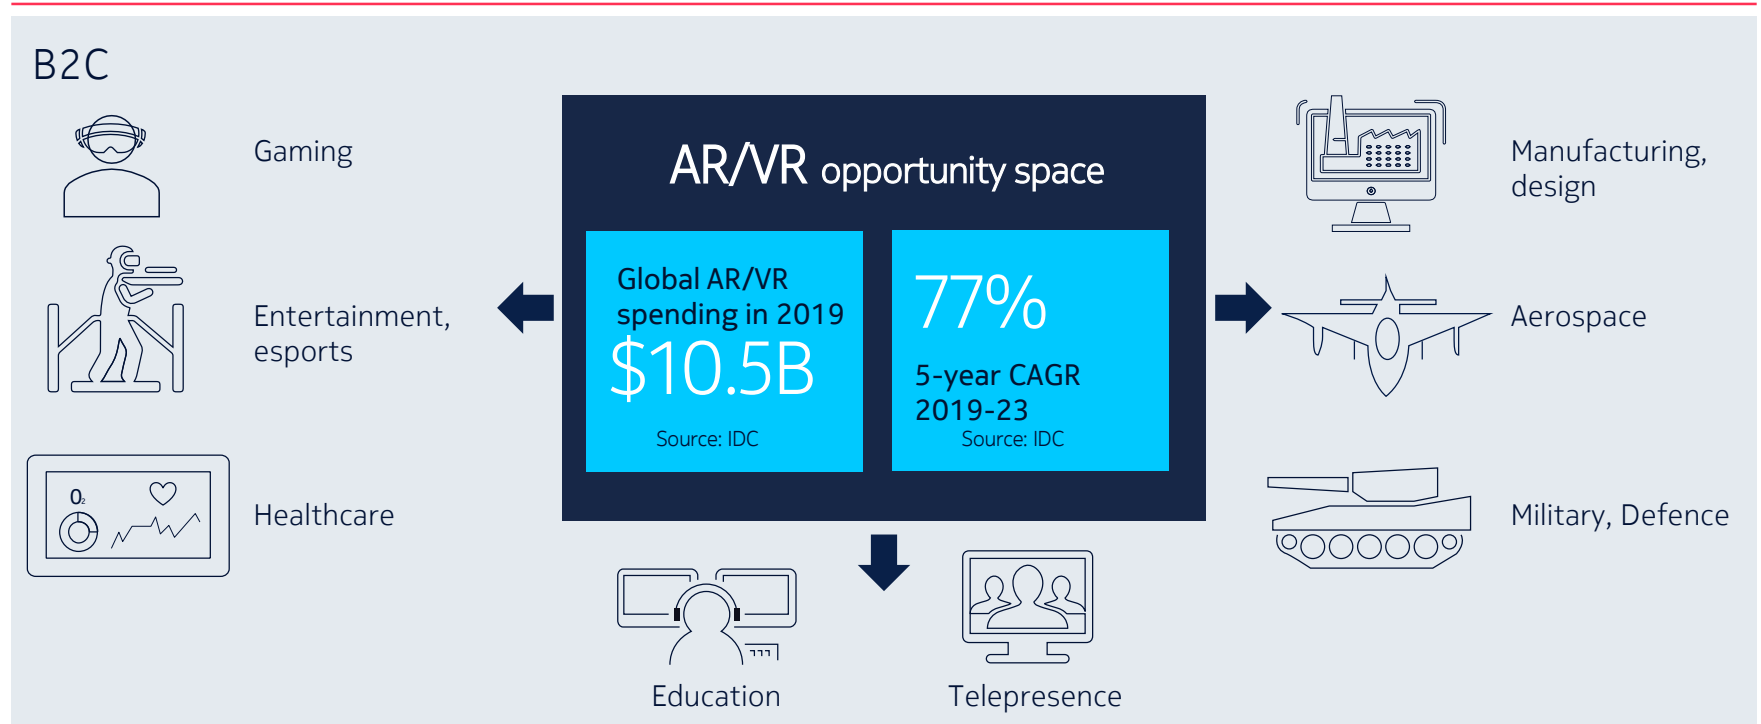

7M Base Stations

14M Industrial Sites

AR/VR will impact many industry verticals...

...creating diverse and massive business opportunities – depending on 5G deployments

The future of digital transformation: how to plan for it?

It's not just about technology

1. Prepare for big changes

2. Address the digital skills gap

3. Ride the wave

A close-up photograph of a person's hand adjusting a black control knob on a piece of industrial machinery. The background is blurred, showing other parts of the machine and a control panel with a gauge and various buttons. The lighting is bright and focused on the hand and knob.

NOKIA

5G will transform human possibilities,
industrial control and operations

Nokia's technology leadership
ensures that 5G impact

Join us on the journey to the
next industrial revolution!

NOKIA

“We sit on the cusp of a revolution in Information...”

Data & information
becoming instant.

Big data becoming small.

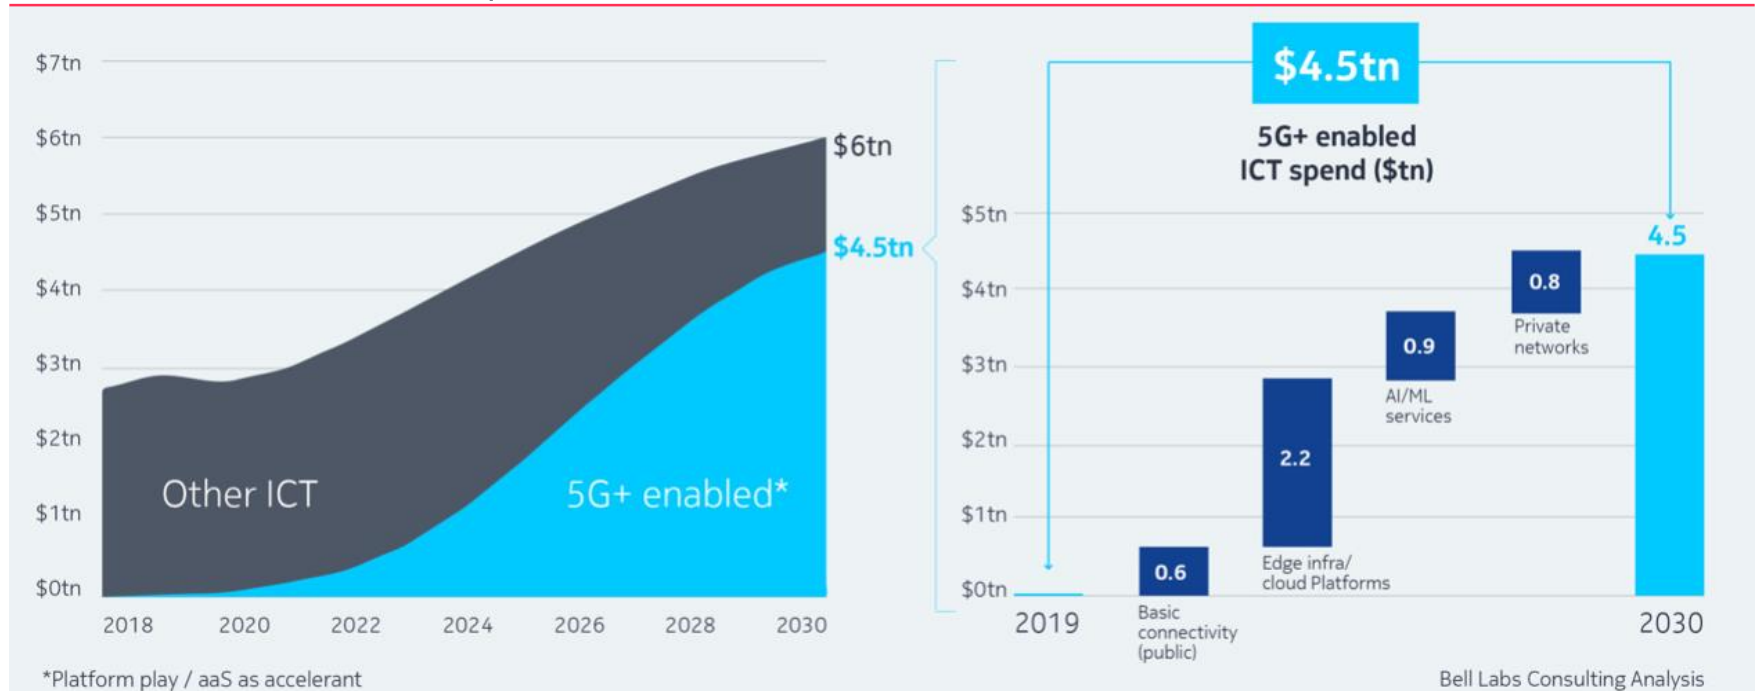

Intelligence becoming
augmented.

Information is the communication or reception of knowledge

Show me the money!

Bell Labs Research Report

5G + = E2E 5G + Edge cloud + Private networks + Augmented intelligence + Automation + PaaS
