

The background of the slide is a red-tinted image of the Tower Bridge in London. The bridge's two towers and the suspension cables are visible. On the left side, there are two overlapping curved shapes, one light red and one dark red, that appear to be part of a graphic design.

Crafting Innovation

About

Norden Communication

Headquarters

Located in London, UK, Norden Communication has over two decades of history, initially focusing on delivering reliable and effective ELV and security solutions.

Comprehensive Portfolio

Norden offers a diverse product range across six product verticals, including Surveillance, Cabling Systems, Public Address, Access Control, Fire Alarm Systems, and UPS Systems, with continuous expansion into new areas. Our commitment to quality, reliability, and innovation ensures safety, connectivity, and efficiency for businesses worldwide.

Global Presence

Over the years, Norden has expanded its reach, servicing markets across Europe, the Middle East, Africa, and Asia, meeting the demands of diverse industries worldwide. With operations in 50+ countries, Norden continues to deliver innovative solutions tailored to evolving security and infrastructure needs.

Commitment to Quality

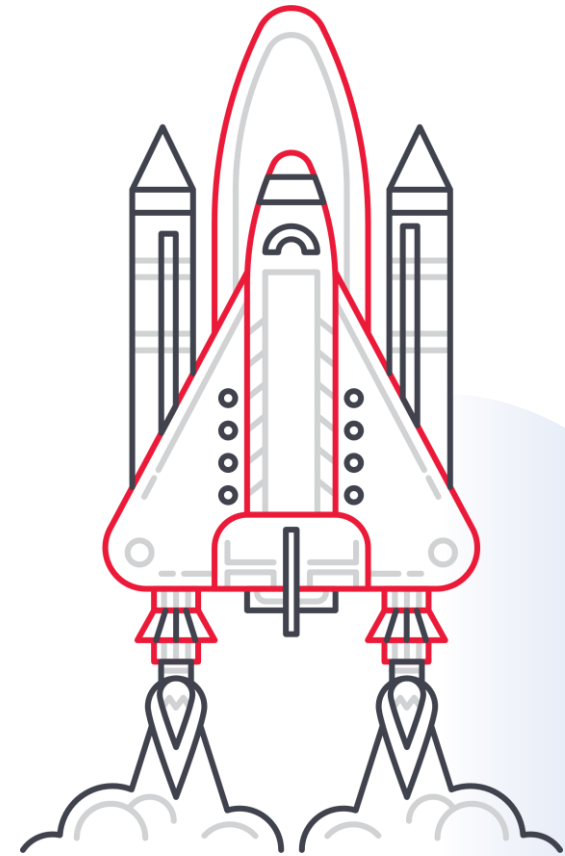

Norden operates with a dedicated quality assurance team and adheres to an ISO-certified quality management system, ensuring all products meet the highest standards.

Mission

At Norden Communication, we are dedicated to crafting innovative technology that enhances global safety, security, and communication. Our mission is to protect lives, secure assets, and facilitate seamless connectivity by delivering cutting-edge, reliable solutions.

As an ethical, green, and environmentally conscious company, we are committed to sustainability in every aspect of our operations. We pride ourselves on being a culturally diverse and inclusive employer, fostering a collaborative environment that values and respects differences.

Our aim is to become a trusted, mono-brand, single-source provider for safety, security, and communications solutions globally, driving progress and excellence for a safer, more connected, and inclusive future.
