

Dr. Sendil Devar
5G India Forum (5GIF)

Dr. Sendil Devar is currently responsible for leading standardization and spectrum engagements in India. He works closely with the national, regional and global working groups related to standards and spectrum matters. He actively contributes towards national preparatory views towards the ITU-R, APT, AWG and WRC.

He actively contributed in the IMT-2020 process. At Ericsson, he is focused on future spectrum that are subject of the World Radio Conference and support for technical studies.

He was awarded Ph.D. in Electrical Engineering with specialization in Wireless Communication from Indian Institute of Technology, Madras.

Prior to Ericsson, he worked with research organizations including Samsung R&D, Centre of Excellence of Wireless Technology and Telecom Centre of Excellence. He had contributed to standardization development in both 3GPP2 and 3GPP for HRPD, HSDPA, LTE. He also has a career stint as a mentor in a patent service organization dealing with patents for 4G standards and high-tech industries.
