Vision

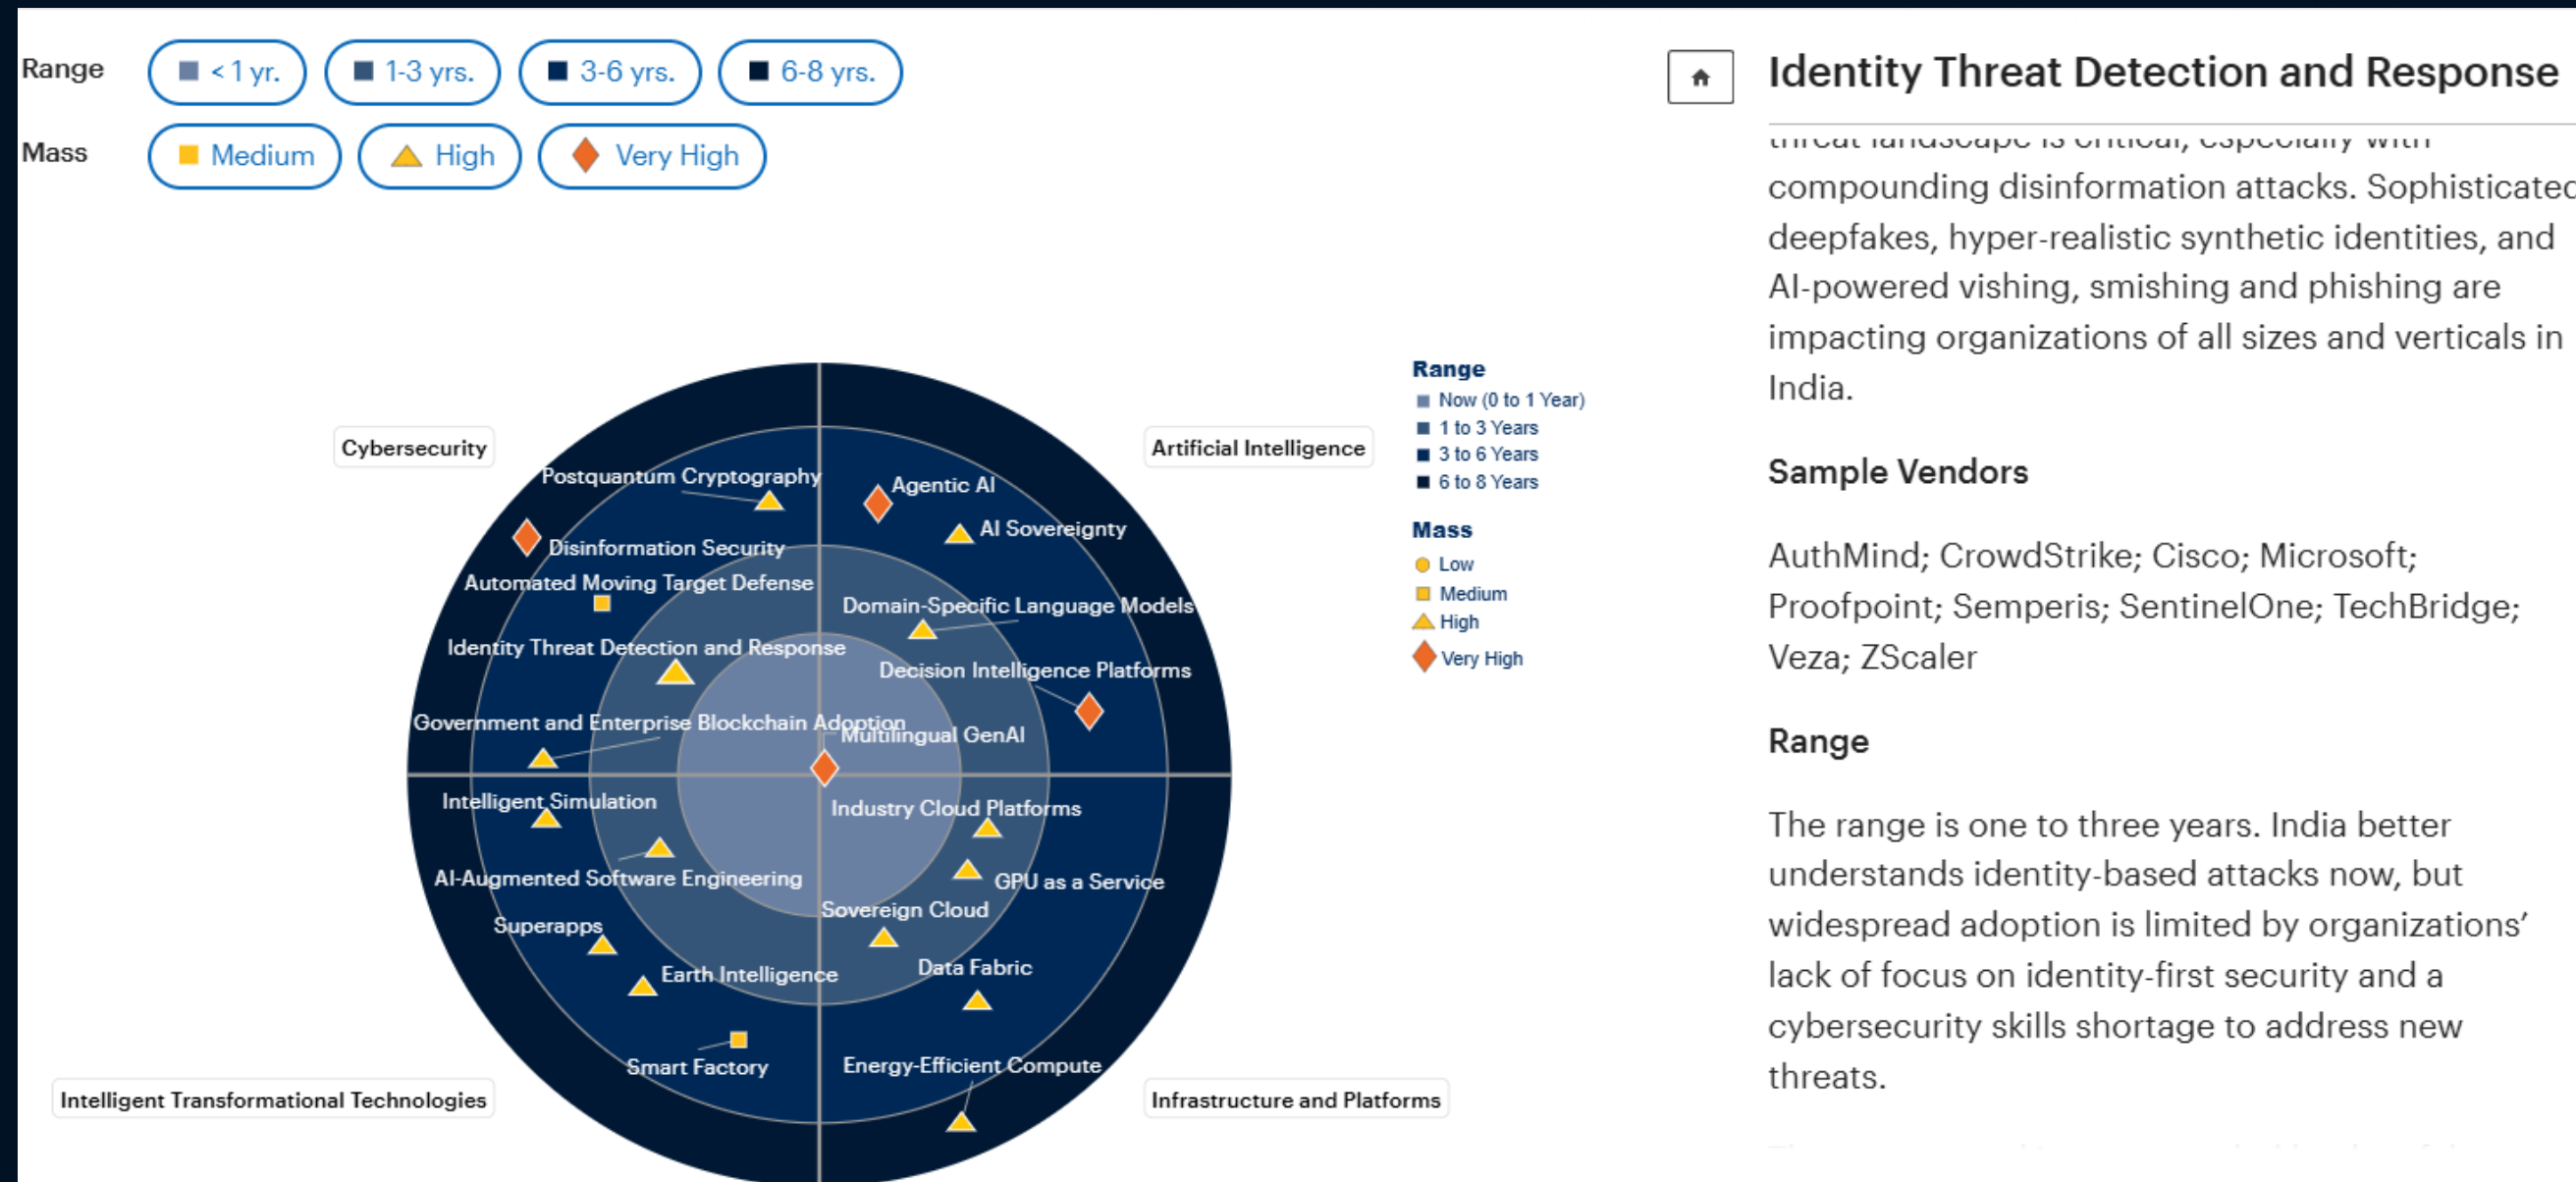

To monitor and secure the critical infrastructure of every country, shaping a safer, more resilient world.

Mission

To deliver innovative solutions that empower organizations to monitor and secure, critical infrastructure.

ObservaX Platform

Next Gen advanced AIOPs and ITOPs Platform

Complete NOC-in-a-box Solution

01

AI-Powered Platform
(with Gen-AI support)

04

On-premise, hybrid,
Cloud Support

02

Automation, Pre-Integration
Delivers ~50% efficiency over
competitor

05

Automated Issue
Resolution

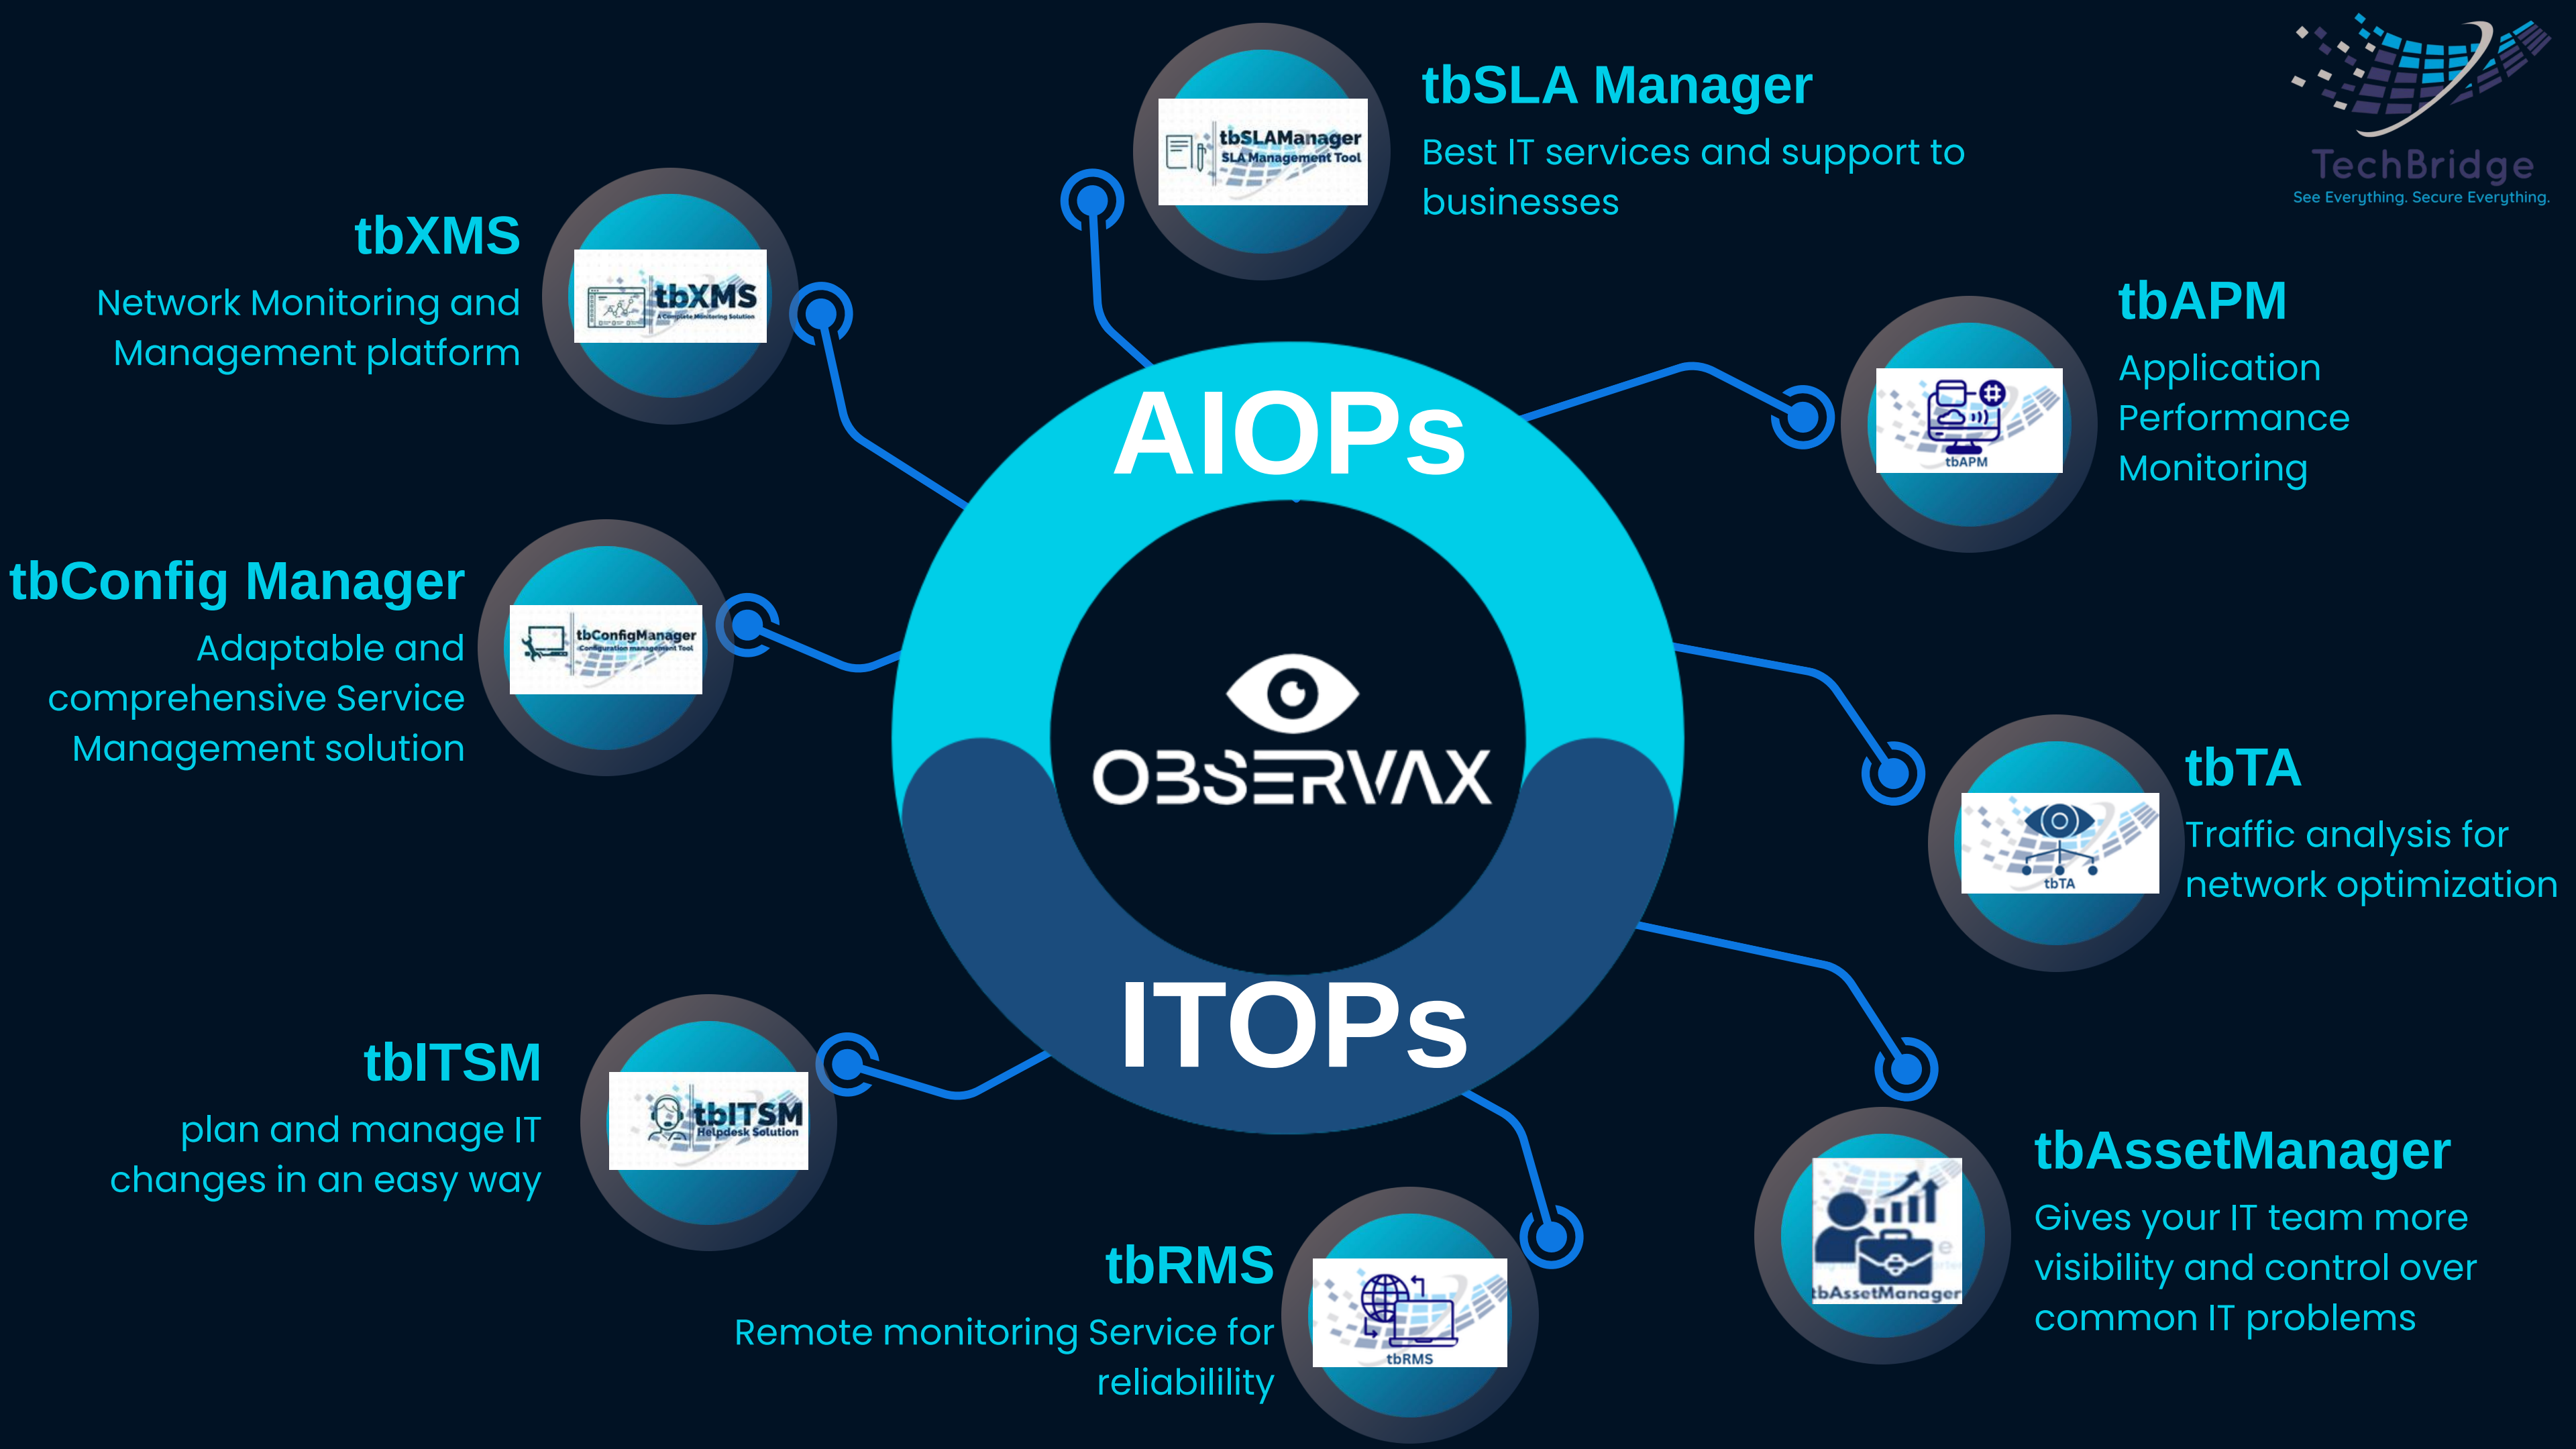

03

'Zero Touch' Network
Operations

06

Integrates Security
with Asset visibility &
monitoring

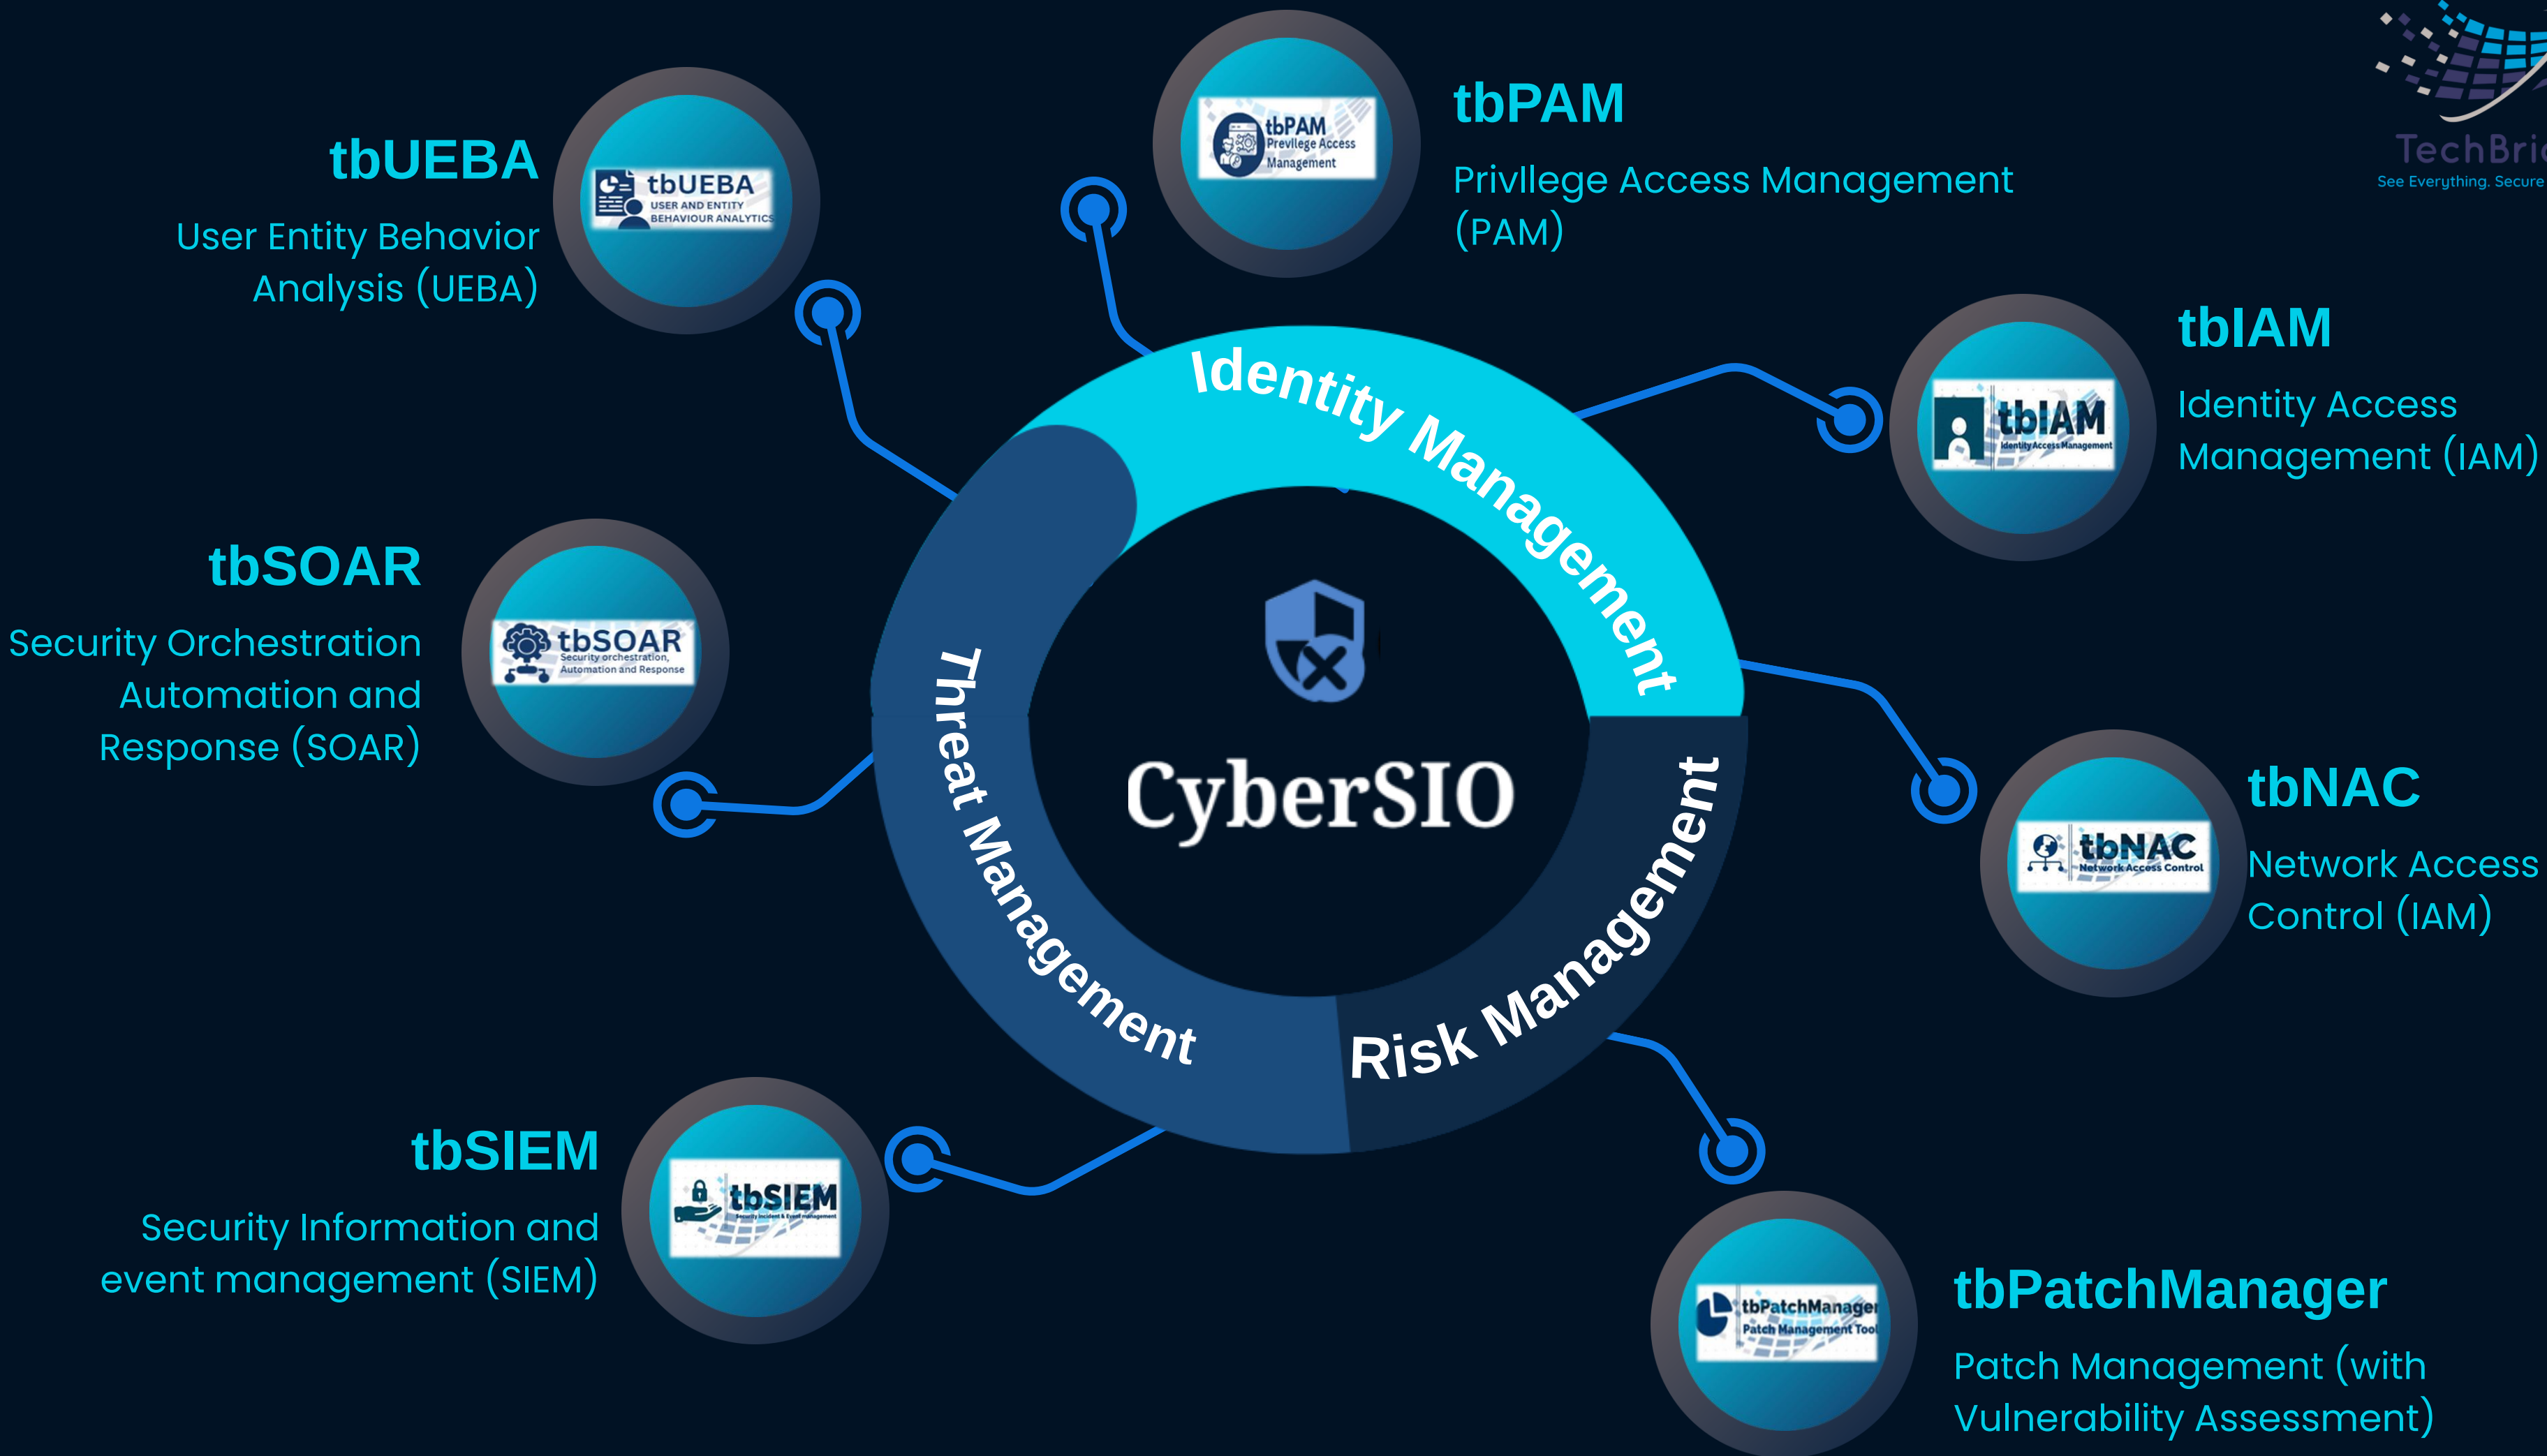

CyberSIO Platform

Threat || Identity || Risk Management

Complete SOC-in-a-box Solution

CYBERSECURITY • NETWORK MONITORING • DIGITAL
INFRASTRUCTURE

SEE EVERYTHING. SECURE EVERYTHING.

Cybersecurity & Network Intelligence for Safer, Smarter and
More Resilient Infrastructure

TECHBRIDGE

Gold Partner — 4th Bharat Safe City & Mobility Summit

CYBERSECURITY

NETWORK MONITORING

DIGITAL INFRASTRUCTURE

THE FOUNDATION

Every Safe City Is Built on a Network

Can we protect the infrastructure?

Can we see what is happening?

You Cannot Secure What You Cannot See

NETWORK OPERATIONS

Is the network available?

Where is performance degrading?

Which device is affected?

What changed?

WHAT IS HAPPENING
ACROSS THE ENTIRE
ENVIRONMENT?

SECURITY OPERATIONS

Is there an attack?

Which asset is compromised?

Is behaviour abnormal?

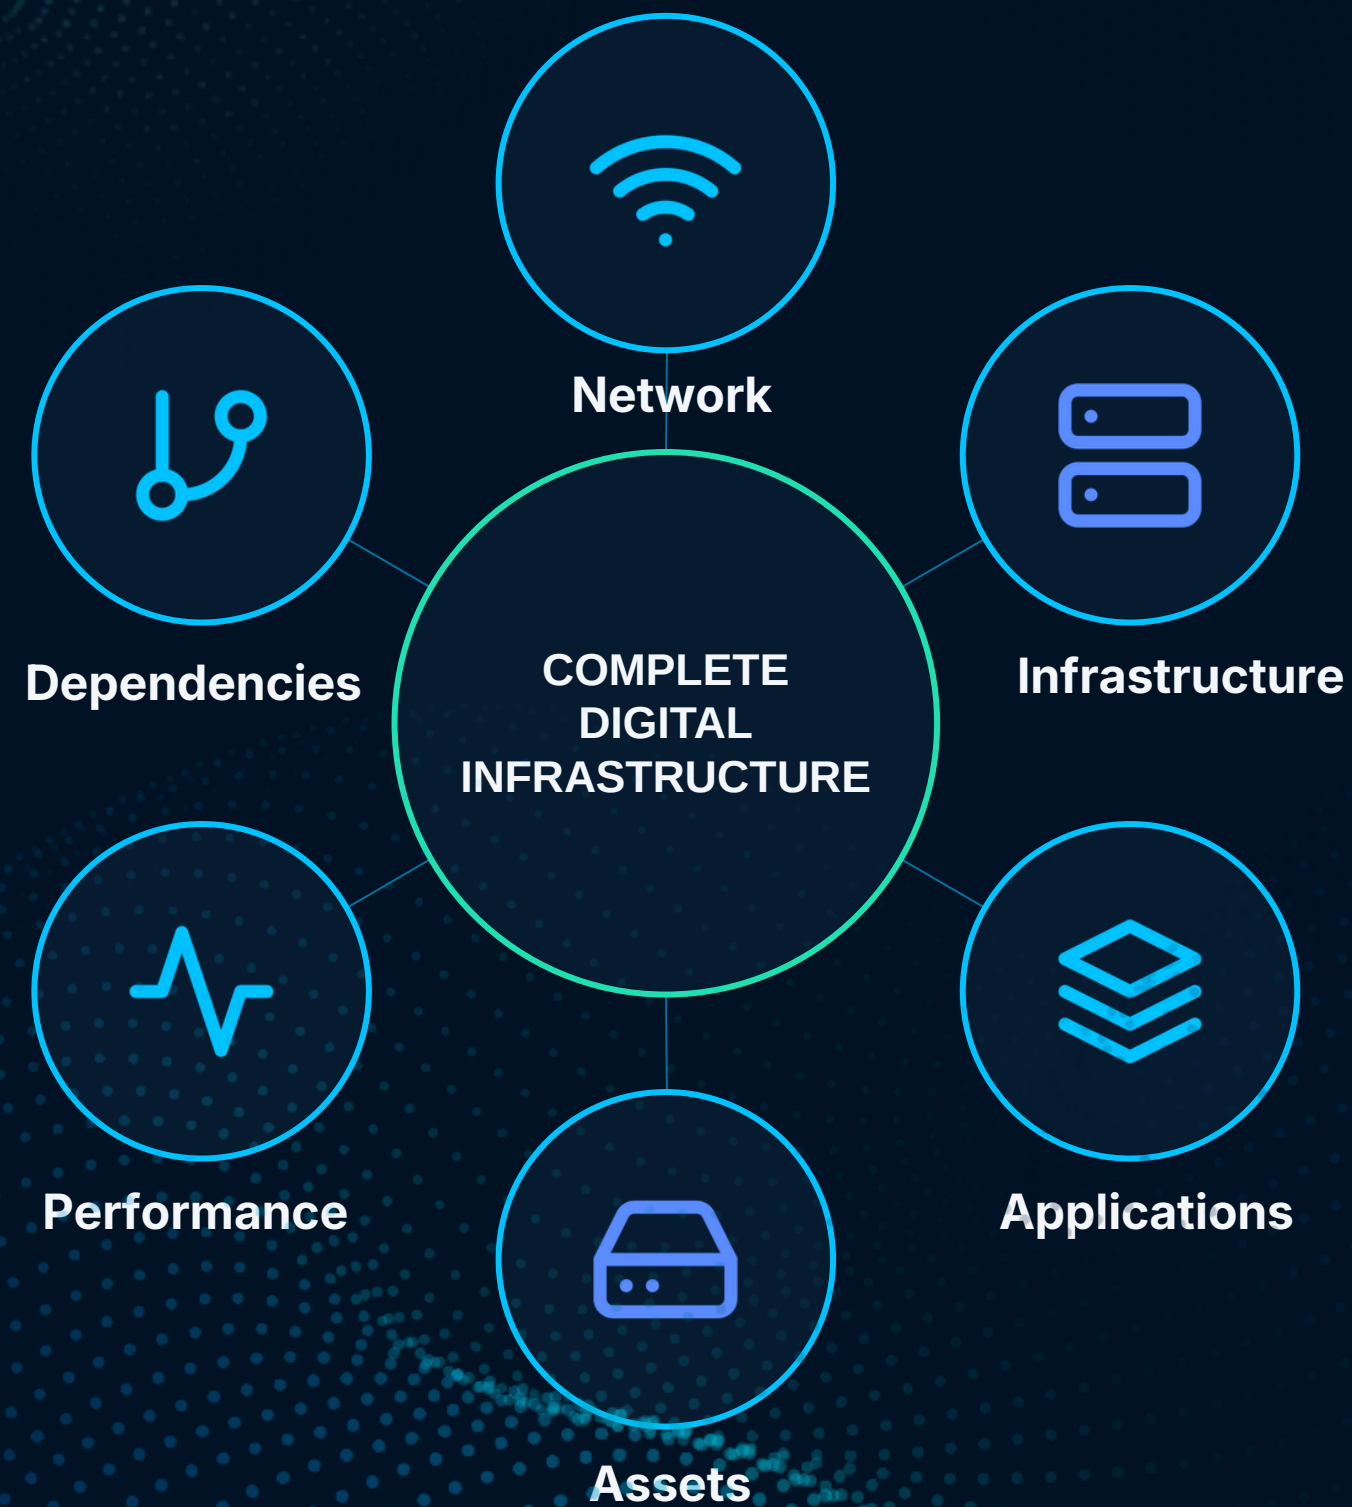

What is the risk?

SEE EVERYTHING

Complete Network & Infrastructure Visibility

TechBridge
See Everything. Secure Everything.

TechBridge enables visibility across:

THE VISIBILITY PROGRESSION

- Devices
- Infrastructure
- Applications
- Services

From individual devices to the complete digital infrastructure.

SECURE EVERYTHING

Cybersecurity for the Connected Infrastructure

TechBridge enables organizations to

DETECT

UNDERSTAND

PRIORITIZE

RESPOND

RECOVER

From Network Monitoring to Network Intelligence

Availability

Performance

Faults

Infra Health

Configuration

Capacity

Topology

Service Impact

DEVICE

NETWORK

INFRASTRUCTURE

SERVICE

SERVICE IMPACT

From Security Events to Security Intelligence

The Most Important Insight Is Often Between Two Alerts

INDIVIDUALLY: FOUR EVENTS TOGETHER: ONE POTENTIAL ATTACK

INTELLIGENT MOBILITY

Cybersecurity + Network Monitoring for Intelligent Mobility

Traffic
Controllers

Cameras

Sensors

Platforms

NETWORK MONITORING

Availability · Performance · Faults · Topology

CYBERSECURITY

Threat Detection · Identity · Response · Resilience

KEEP THE NETWORK VISIBLE. KEEP THE INFRASTRUCTURE SECURE. KEEP THE CITY MOVING.

BEYOND CITIES

The Same Security & Visibility Principles Extend Beyond Cities

Railways & Transportation

Signalling · Rolling stock · OT networks

Power & Energy

SCADA · Grid monitoring · Substations

Government

Citizen data · e-Governance · DPDP

Smart Infrastructure

IoT · Utilities · Connected assets

KNOW WHAT IS CONNECTED. KNOW WHAT IS HAPPENING. KNOW WHAT IS AT RISK.

TECHBRIDGE'S VISION

One Technology Vision. Two Critical Capabilities.

SEE EVERYTHING

Network & Infrastructure
Intelligence

SECURE EVERYTHING
